The Resistor Series

All right reserved

- **Burglary Resistant** — High Security Engineering. Anti-peel Zee bar structure solidified with a Composite High Strength blend of PSI cement, and armed with super alloy manganese steel plates on strategic drill points.
- **World Class Locking Mechanism** — Carries an impressive Active Glass Relocker.
- **High Security Lock** — UL listed LG Basic II High Security Chrome Electronic Keypad standard with every Resistor. User-friendly operations with six digit private code. Mechanical lock also available.
- **4 Way Locking Bolts** — Massive 1.5 inch hardened steel side bolts, chrome fixed bolts, and the all important top and bottom locking steel bolts, a feature hard to find in most other home safes. (The 1814 model and smaller have 1 inch side bolts) All bolts lock into receiver cups.
- **Fire Resistant** — Withstanding temperatures up to 1850 degrees, the Resistors carry a Manufacturer tested 350 Degree, Two Hour Fire Resistant Rating.
- **Safe Door** — Overall thickness of 4.25 inches.
- **Safe Body** — Overall thickness of 2.5 inches.
- **Door Hardware** — Shiny Polished Chrome Pull Handle and Tri-Spoke Turn Handle.
- **Bolt Down** — Safe equipped with 2 Anchor Holes for installation.
- **Storage** — Adjustable shelves standard with easy slide in shelf clips.
- **Options** — Drawer Interiors, mechanical locks, larger sizes by custom order, concealment cabinets.

Safe Model	Internal Dimensions (inches)			External Dimensions (inches)			Volume (Cubic Capacity)	Shelves	Weight (lbs.)
	H	W	D	H	W	D			
Resistor									
1212	12	12.6	11.5	16.3	17	17.8	1	1	271
1512	15	12.6	12.5	19.3	17	19	1.36	1	313
1814	18	14.6	15	22.3	18.9	21	2.28	1	396
2414	24	14.6	15.7	28.3	18.9	21.7	3.18	2	568
3416	34	16.7	16.8	38.3	21	23.7	5.52	3	704
5216	52	16.6	16.8	56.4	21	23.7	8.39	4	1133

Add an additional 2 inches to depth for handles and hinges.

The Resistor Safe by Original defines tough. It combines a powerful bond of fire and burglary protection with its unique features like dense, concentrated weight, strong composite materials, and Original's high security engineering.

The safe is resilient enough to handle commercial applications yet is convenient enough for any personal use. Its futuristic appearance is innovative in design, and its ease of use will leave owners comfortable and confident.

With a range of six different sizes, there is a Resistor safe for most storage needs, and if something larger is requested, Original Safe and Vault Inc. can create it.

Versatile, heavy-duty, and user-friendly, the Resistor Safe by Original is the highest quality fire and burglary safe available.
